

Percent Unit Review

1. The cost to Dillard's for a pair of shoes is \$12.

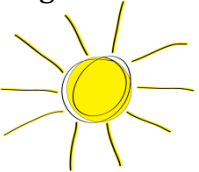

A. Dillard's marks up the shoes 40% to sell. How much do they charge for the shoes?

B. If I have a coupon for 20% off, how much will I pay for the shoes?

C. How much money will Dillard's make on MY purchase?

2. On Monday, the temperature was 68 degrees. On Wednesday the temperature is expected to be 80 degrees. What is the percent increase in temperature to the nearest percent?

3. Jackson paid \$31.50 for a new video game that was on sale 25% off. What was the original price of the video game?

4. Mickey and Minnie went out to dinner, and their food and drinks totaled \$27.65. How much will they pay total after 6% tax and a 15% tip?

5. After a discount, Elizabeth paid \$29.75 to get a pedicure. If pedicures are normally \$35, how much of a discount did Elizabeth receive?

6. A new pair of dancing shoes is on sale 35% off, and now are priced \$27.30. What was the original price of the shoes?
